OC - 7948

Assistant Director for Current Intelligence

Director of Communications

COMINT Ciphony Circuit to NSA

- REF: A. AD/CI's memo to the D/CO, dated 25 August 1958, OCI-4454-58. ✓
B. DD/S's memo to NSA, dated 25 June 1958, DD/S-58-2322.

1. In accordance with the request made in reference A, the Office of Communications is participating in discussions to determine the equipment needed and the problems involved in meeting your requirement for a COMINT ciphony link between NSA and the new CIA building.

2. As a matter of record, the Office of Communications has not programmed any funds for this requirement in either the FY-1959 or FY-1960 budget estimates. It may be possible to provide for this requirement in our FY-1961 estimates. However, since this specific requirement is an integral part of the COMINT phone system for the new CIA building the Office of Communications currently plans to furnish either the Building Planning Staff or your Office with the details for inclusion of the necessary funds for this portion in a single Agency program.
